

Assistant Driller / Laborer

Job Overview

Eastern Analytical, Inc. is one of the leading environmental laboratories and provider of environmental drilling services in New England. As an employee-owned company, we're proud of the work we do and even more proud of the employees that make it happen each and every day. We are looking for a talented Assistant Driller / Laborer to join our team. Don't worry if you don't have experience – we will help you with that! If you're excited to be part of a winning team, Eastern Analytical, Inc. is a great place to grow your career. You'll be glad you applied to EAI!

Job Description

Work as part of a two person team to perform field and drilling tasks.

Assist with the operation and maintenance of an environmental drilling rig, associated vehicles and equipment.

Various activities include performing soil borings, digging, concrete work, installing groundwater monitoring wells, truck loading, equipment cleaning and repair.

Assist driller with maintaining daily logs and records of drilling activities.

Responsible for following all protocols and standard operating procedures while maintaining a clean and safe work environment at all times.

Requirements

Valid driver's license required.

Candidates should have well-developed problem solving skills, excel at multi-tasking and present a professional image.

Strong customer service and communication skills required as well as attention to detail and a can-do, positive attitude.

Lifting of 80-plus pounds and working outdoors in all types of weather.

Preferred candidates have some ability to maintain/repair mechanical and hydraulic systems, welding experience or convey the willingness to be trained.

No experience necessary, however, preference given to candidates possessing experience and/or a CDL B license.

Travel may be required.
